The return of the **Wednesday Webinar Series**

FREE!!!! Every Wednesday from 12:00pm – 1:00pm MST

ICC and AIA learning units available for each webinar

CEO Webinar 1: December 7, 2016: Manual J Review: To Register go to: **Completed**

CEO Webinar 2: December 14, 2016: IECC Commercial Mechanical Basics: To Register go to: **Completed**

CEO Webinar 3: December 21, 2016: Commercial Lighting and Daylighting: To Register go to: **Completed**

CEO Webinar 4: December 28, 2016: COMcheck Basics: To Register go to: **Completed**

CEO Webinar 5: January 4, 2017: Energy Code- Top 10 Approach to Efficiency: To Register go to: **Completed**

CEO Webinar 6: January 11, 2017: IECC for Multi-Family Construction: To Register go to: **Completed**

CCC Webinar 7: January 18, 2017: IECC – Paths to Compliance: To Register go to: **Completed**

CCC Webinar 8: January 25, 2017: IECC for Beginners, Descrambling the Code: To register go to: **Completed**

CCC Webinar 9: February 1, 2017: HERS Index and Code Compliance: What is a HERS Index? This webinar will reveal who RESNET is and how the HERS Index works and then how it has been adopted into the 2015 IECC.

To Register go to: <https://attendee.gotowebinar.com/register/5715936920145304322>

CCC Webinar 10: February 8, 2017: Intro to Building Science: Building science is now imbedded in the IECC. This webinar offers an introduction into the core principals of Building science which you need to know in order to successfully adopt and enforce the IECC.

To Register go to: <https://attendee.gotowebinar.com/register/6787082247436292098>

CCC Webinar 11: February 15, 2017: Energy Codes for Log Homes: This webinar will look at the options available to designers and contractors when trying to get log homes to comply with the energy codes. We'll go through different standards and compliance tools to find out what might work best for these structures.

To Register go to: <https://attendee.gotowebinar.com/register/6078519571102074114>

CCC Webinar 12: February 22, 2017: IECC for Existing Buildings: In this webinar we will go through Chapters C5 and R5 of the 2015 IECC to discover what the requirements are for historic buildings, as well as additions, remodels and repairs to existing buildings.

To Register go to: <https://attendee.gotowebinar.com/register/8797122545477778947>

CCC Webinar 13: March 1, 2017: [Whole House Mechanical Ventilation Strategies](#): This webinar will take a look at the Whole House Mechanical Ventilation requirements as found in the IRC, IMC and IECC for both single family and multi-family dwellings.

To Register go to: <https://attendee.gotowebinar.com/register/4336586390521128449>

[NO WEBINAR WEDNESDAY, MARCH 8, 2017](#)

CEO Webinar 14: March 15, 2017: [Energy Use in Commercial Buildings, Our Study](#): We'll take a look at the 2016 study done by the Colorado Energy Office in partnership with Colorado Code Consulting and Group 14 Engineering to see how commercial buildings are using energy and what we can do about it from a codes point of view. [This is part 1 of our 2-part webinar.](#)

To Register go to: <https://attendee.gotowebinar.com/rt/4537166998241522689>

CCC Webinar 15: March 22, 2017: [Blower Door and Duct Testing 101](#): The IECC requires verification of mandatory items like air leakage of the building and the duct system. Let's learn what these tests do and why they are needed.

To Register go to: <https://attendee.gotowebinar.com/register/1870039861303452929>

CEO Webinar 16: March 29, 2017: [Energy Code- The Top 10 Approach to Efficiency](#): Having trouble trying to enforce every provision of the IECC? Last webinar took a look at the different type of commercial buildings and how they use energy. Now we'll look at the concept of, at a minimum, targeting the top 10 code requirements that deal specifically those high energy uses. [This is part 2 of our 2-part webinar.](#)

To Register go to: <https://attendee.gotowebinar.com/rt/213514543384559105>

CCC Webinar 17: April 5, 2017: [All About Compliance Snapshots](#): Xcel Energy is funding "Compliance Snapshots" that will be performed by Colorado Code Consulting throughout 2017 and 2018. The snapshots will look at what a jurisdiction's policies and procedures are when it comes to applying for building permits as well as performing plan review and inspections so that tools can be created, suggestions made to simplify or make the processes more efficient and identify future training needs.

To Register go to: <https://attendee.gotowebinar.com/rt/7780441526669417473>

CCC Webinar 18: April 12, 2017: [IECC vs ASHRAE 90.1 – Building Envelopes](#): This course will look at the differences between the 2015 IECC and the 2013 ASHRAE 90.1 provisions as they relate to the building's thermal envelope.

To Register go to: <https://attendee.gotowebinar.com/register/5396892732186457859>

CCC Webinar 19: April 19, 2017: [IECC vs ASHRAE 90.1 – Mechanical Systems](#): This course will look at the differences between the 2015 IECC and the 2013 ASHRAE 90.1 provisions as they relate to the building's mechanical systems.

To Register go to: <https://attendee.gotowebinar.com/register/2631205372934539011>

CCC Webinar 20: April 26, 2017: [IECC vs ASHRAE 90.1 – Electrical Power and Lighting](#): This course will look at the differences between the 2015 IECC and the 2013 ASHRAE 90.1 provisions as they relate to the building's electrical power and lighting systems.

To Register go to: <https://attendee.gotowebinar.com/register/2473196755930124291>

CEO Webinar 21: May 3, 2017: [Energy Use in Commercial Buildings, Our Study](#): We'll take a look at the 2016 study done by the Colorado Energy Office in partnership with Colorado Code Consulting and Group 14

Engineering to see how commercial buildings are using energy and what we can do about it from a codes point of view. [This is part 1 of our 2-part webinar.](#)

To Register go to: <https://attendee.gotowebinar.com/rt/4537166998241522689>

CEO 22 Webinar 22: May 10, 2017: [Energy Code- The Top 10 Approach to Efficiency:](#) Having trouble trying to enforce every provision of the IECC? Last webinar took a look at the different type of commercial buildings and how they use energy. Now we'll look at the concept of, at a minimum, targeting the top 10 code requirements that deal specifically those high energy uses. [This is part 2 of our 2-part webinar.](#)

To Register go to: <https://attendee.gotowebinar.com/rt/213514543384559105>

CCC Webinar 23: May 17, 2017: [Manual J Review:](#) In one hour we will go through the top 10-15 items to look at when performing a Manual J (Residential Load Calculation) review. We won't spend time building the clock but rather learning how to tell time with our friend, Gil Rossmiller.

To Register go to: <https://attendee.gotowebinar.com/rt/2318384419227666179>

CCC Webinar 24: May 24, 2017: [Lowering Your HERS Index Scores:](#) After a quick refresher on how the ERI pathway is structured in the 2015 IECC we will explore the Rating software and the specification of a house to determine how to lower the Energy Rating index to meet the intent of the IECC.

To Register go to: <https://attendee.gotowebinar.com/register/6253693765202870274>

CCC Webinar 25: May 31, 2017: [What's Coming in the 2018 IECC?](#) This course will go through a brief overview of the new requirements that have been approved for the 2018 IECC.

To Register go to: <https://attendee.gotowebinar.com/register/8818104525874185986>

CCC Webinar 26: June 7, 2017: [IECC Residential Inspections:](#) This webinar will take a look at the processes, best practices, code requirements and real world application for performing residential Energy Code Inspections.

To Register go to: <https://attendee.gotowebinar.com/register/1870775434585533698>

CCC Webinar 27: June 14, 2017: [IECC Commercial Inspections:](#) This webinar will take a look at the processes, best practices, code requirements and real world application for performing commercial Energy Code Inspections.

To Register go to: <https://attendee.gotowebinar.com/register/6799169180324051714>

CCC Webinar 28: June 21, 2017: [Residential Energy Code Plan Review submittals:](#) Having trouble trying figure out what should be on a set of plans as far as residential energy code compliance in order to get through the plan review process? Wondering what would make your life easier as a designer, permit applicant or plan reviewer when it comes to evaluating if the plans meet the energy code requirements? This course will take a look at all of that and will include helpful tools and tricks of the trade.

To Register go to: <https://attendee.gotowebinar.com/register/5727855627754009090>

CCC Webinar 29: June 28, 2017: [Commercial Energy Code Plan Review submittals:](#) Having trouble trying figure out what should be on a set of plans as far as commercial energy code compliance in order to get through the plan review process? Wondering what would make your life easier as a designer, permit applicant or plan reviewer when it comes to evaluating if the plans meet the energy code requirements? This course will take a look at all of that and will include helpful tools and tricks of the trade.

To Register go to: <https://attendee.gotowebinar.com/register/923837537837921538>

CCC Webinar 30: July 5, 2017: Understanding Xcel Energy Programs: Xcel Energy has some great programs that will help the designer, contractor and code official with energy efficiency in buildings as well as code compliance. We will cover the various programs out there for people in Xcel's Colorado territories.

To Register go to: <https://attendee.gotowebinar.com/register/5155889678984968194>

Xcel Webinar 31: July 12, 2017: IECC Commissioning Requirements This webinar walks through the requirements and processes of the IECC's Section C408 Commissioning requirements.

To Register go to: <https://attendee.gotowebinar.com/register/8197605034343592706>

Xcel Webinar 32: July 19, 2017: HERS Index and Code Compliance: What is a HERS Index? This webinar will reveal who RESNET is and how the HERS Index works and then how it has been adopted into the 2015 IECC.

To Register go to: <https://attendee.gotowebinar.com/register/7321021588122446594>

Xcel Webinar 33: July 26, 2017: Intro to Building Science: Building science is now imbedded in the IECC. This webinar offers an introduction into the core principals of Building science which you need to know in order to successfully adopt and enforce the IECC.

To Register go to: <https://attendee.gotowebinar.com/register/2086274216071640322>

Xcel Webinar 34: August 2, 2017: Manual J Review: In one hour we will go through the top 10-15 items to look at when performing a Manual J (Residential Load Calculation) review. We won't spend time building the clock but rather learning how to tell time with our friend, Gil Rossmiller.

To Register go to: <https://attendee.gotowebinar.com/rt/2318384419227666179>

Xcel Webinar 35: August 9, 2017: Issues, Concerns and FAQ of the IECC: This course will take a look at the most frequently asked questions, most commonly misinterpreted code sections and concerns over special detailed requirements of the 2015 IECC.

To Register go to: <https://attendee.gotowebinar.com/register/8314066405469319682>

Xcel Webinar 36: August 16, 2017: IECC Electrical Power and Lighting- A Deeper Dive: Let's take a deeper dive into the IECC electrical power and lighting provisions that we don't often look at, like requirements for elevators, escalators, moving walkways, vacancy sensors vs occupancy sensors, options to compliance and more.

To Register go to: <https://attendee.gotowebinar.com/register/2790604872150561538>

Xcel Webinar 37: August 23, 2017: COMcheck Basics: This familiar tool used to show compliance with some of the International Energy Conservation Code's commercial provisions has been overhauled and updated. This session will walk you through how to use COMcheck as well as how to read the reports.

To Register go to: <https://attendee.gotowebinar.com/register/6423234060159708674>

Xcel Webinar 38: August 30, 2017: IECC for Multi-Family Construction: this webinar will cover the basics for complying with the energy code for R-2 Multi-Family dwellings, noting the differences between the residential requirements and commercial requirements based on stories above grade plane. Mechanical Ventilation differences will be discussed as well.

To Register go to: <https://attendee.gotowebinar.com/register/7280356150569250818>

Xcel Webinar 39: September 6, 2017: All About Compliance Snapshots: Xcel Energy is funding "Compliance Snapshots" that will be performed by Colorado Code Consulting throughout 2017 and 2018. The snapshots will look at what a jurisdiction's policies and procedures are when it comes to applying for building permits as

well as performing plan review and inspections so that tools can be created, suggestions made to simplify or make the processes more efficient and identify future training needs.

To Register go to: <https://attendee.gotowebinar.com/rt/7780441526669417473>
